SHAASA RANGE

Uplighter Glueboard Fly Killer

WHITE POTTERY

MARBLE POTTERY

NATURAL TERRACOTTA

Shaasa is the top of our range of Uplighter Glueboard Fly Killers. The right solution for any environment where a discreet insect control device is required.

Shaasa is the only fly killer made of fine pottery or "terracotta", which combines functionality and Italian design.

Shaasa is an effective insect control that can be used as a furnishing part in: pubs, restaurants, hotels, shops, but also in private residences.

The actinic tube entices insects inside the uplighter where the interchangeable glueboard is placed.

Specifications:

Power: 220 VA
Coverage: 50 mq
Tube: Actinic 15 watt
Fixing: wall mounted
Weight: 1,9 Kg
Dim.: mm 400x70h ray 200
Power switch : optional
CE marked

Shaasa INSIDE VIEW

Shaasa is proposed in three versions:

White Pottery, Marble Pottery, Natural terracotta

Shaasa can be personalized with your logo in different colours.

Effective: insect control 24 hours a day

Eco-friendly: substitutes chemical insecticides

Economical: Little costs and low power consumption

TRAP RANGE

Professional Glueboard Fly Killers

TRAP 30 WHITE Version

TRAP 40/80 STAINLESS STEEL Version

Our range of professional Glueboard Fly Killer includes three versions 30, 40 and 80 watt, in White or Stainless Steel.

Studied for those places where insect control is an hygienic binding such as: food industries, communities and commercial concerns. Trap range fully complies with the HACCP requirements.

Thanks to its functionality and design it can be fixed on the wall or hanged using the special chains included in the supply. The actinic tubes entice insects inside the trap where the interchangeable wide glueboard is placed.

Shatterproof tubes: optional.

CE marked.
